

A library is an important source of knowledge to young minds in schools. It develops the important habit of reading among the students. Libraries are just not about collection of books. Now a days libraries are more commonly famous as study space. They are providing study space and environment.

The library plays an important role in our academic and social lives. The library is an organized collection of information resources this collection of information may be in the form of books, newspaper, magazine, CD's, journals and research papers etc.

The library plays a great role in the life of students by serving as the store house of knowledge. The importance of a library in a school cannot be over emphasized.

The aim of the Library is to develop it as a unique **Central library** for academics, faculty, staff and students of **the** institute.

The **Central library** is housed in a newly built academic spacious building of **SDGP**. The pleasant ambience and the well-furnished Resource Centre with open terraces and spacious reading rooms create an atmosphere of serenity and thereby inspire the learning and research.

SDGP Central Library is spread over area 100mt sq. With 40 students seating capacity. Entire Library is natural air conditioned and overlooks beautiful landscape comprising of lush green plantation along the banks of the Yamuna River and surrounded by Yamuna Valley. Currently, **SDGP central library** has over all subject related **2338** books available with **352 Titles**, over some CDs/DVDs more than **10 National journals** and magazines. **SDGP Central Library** collection is growing rapidly and we hope to availability of digital library very soon.
